Welcome in Karlovy Vary, a world-famous spa town with curative hot mineral springs, welcome in the Excelsior spa hotel.

The town of Karlovy Vary is situated in the West of the Czech Republic, in a picturesque valley of the Teplá River, 374 meters above a sea level. According to a famous legend, the springs of Karlovy Vary were discovered in the half of 14th century by the Czech king and Roman emperor Charles IV when he was deer hunting. The name of the town reminds of its discoverer - it was named the Emperor Charles' spa, Carlsbad.

The origin, development and present of Karlovy Vary are bound inseparably with beneficial curative effects of local hot mineral springs. Thus they affect history, architecture, economy and the town's common spirit.

The history of the hotel

The present appearance of the hotel's building originated through the reconstruction of two spa houses - The Excelsior and The English Courtyard (Anglický Dvůr). After uniting these two historical buildings, a hotel complex with a high standard came into existence. All interesting architectonic elements were preserved during the reconstruction.

The location of the hotel

The spa hotel Excelsior, graded with three stars, is located in the heart of the spa near the most famous spring of Karlovy Vary (Vřídla) and other healing mineral springs. The location of the hotel is ideal, with a view of the beautiful architecture of other spa houses.
